IP-AI HAND WRAPPING SYSTEM

Premier Performance

Ishida's IP-AI PC-based hand-wrapping system is the ideal complement to high-volume automatic wrappers. The IP-AI is capable of fast weighing and print speeds up to 150mm per second. Its front-loading large, 230mm label roll capacity keeps businesses up and running longer. Create eye-catching labels with the ability to store and print custom graphics.

Designed to enhance visibility and productivity, the large color touch screen provides easy access to PLUs via category keys. Networking capability with Ishida's ScaleLink Pro 5 scale management software enhances production reporting and ensures consistent and accurate item pricing.

From ergonomic design to high-speed performance, the IP-AI offers the latest technology to streamline prepackaging operations.

Standard Features

- Large 12.1 inch colour touch screen with printer and scale base
- 80mm thermal head
- Prints all trade required safe-handling, country of origin, ingredient and nutritional information
- Compatible with many third-party POS management software systems

Options and Accessories

- SLP-5 scale management software
- Various wrap station configurations
- WiFi communications

Shown with optional equipment

IP-AI label drawer

Specifications
